

Citrus Memorial Health System CEO Ryan Beatty Shares Hospital News with the Rotary Club of Inverness

Citrus Memorial Health System CEO Ryan Beatty recently shared good news about CMHS's notable achievements with the Rotary Club of Inverness. He was invited to speak by new member Sloan Young, who is a physician liaison with the health system.

Beatty assured the Rotarians that high ratings from independent rating agencies demonstrates that the long-running governance dispute between two hospital boards has not affected patient care.

He also told the group that the CMHS Foundation had completed its five-year fundraising program to start preparation for the new wellness and treatment center at the hospital's Allen Ridge medial park location on Highway 491.
