

EDC Director Is Guest Speaker At the Rotary Club of Inverness

John Siefert, Executive Director of the Citrus County Economic Development Council, spoke to the Rotary Club of Inverness recently about the EDC's accomplishments since it was reorganized this past year.

The new EDC's partners include the Citrus County Chamber of Commerce, with which it shares office space and staff, as well as SCORE, Workforce Connection, the Small Business Development Center, and the College of Central Florida. The goal is to grow local business, especially clean business and higher-wage jobs, here in Citrus County.

Siefert told the group about recent success stories including a financial grants to TCG to expand its Citrus County workforce by 16, and to Sibex, which will move into the old Scottie's building in Crystal River and hire 20 locally to start.
