

Citrus Memorial Donation Made

The Rotary Club of Inverness made a \$1,000 contribution to the Citrus Memorial Health Foundation in January.

Chris Poole, Citrus Memorial's foundation development director, is pictured here formally accepting the donation from club president Melanie Hensley and member Rob Tessmer, Jr., both graduates of the Citrus Memorial Health Academy program.

Chris, a member of the Central Citrus Rotary club, described the improvements in the hospital's women's wing that our donation is making possible. Studies indicating that healing is quicker in more amiable surroundings were the impetus for the women's wing project.
