

ROTARY CLUB OF INVERNESS LEND A HAND IN SPECIAL HOSPITAL PROJECT

The Rotary Club of Inverness is proud to be part of the "Rooms To Go" project at Citrus Memorial Health System in Inverness.

Donor funds are used to decorate a room in the women's unit, to give it more of a B&B atmosphere. These private rooms have a more feminine touch than standard, bland hospital rooms.

Studies show that pleasant surroundings make female patients more comfortable during their hospital stay and more responsive to treatment. This comfort level contributes to healing, as the women, on average, require shorter hospital stays.

The Rotary Club of Inverness was delighted to make the contribution that completed the nine-room project for Citrus Memorial. We adopted Room 123.
